Hillview Herefords

STUD HISTORY

Hillview Herefords was established in 2002 after purchasing females from Hillcrest Herefords, Willow Tree. A few years later, we purchased cows from Kirraween Herefords, Cootamundra and Smithton Herefords, Glencoe.

All the stud cows are run under the same conditions as the commercial herd and need to perform all year round.

- In 2012 we purchased the top priced bull, Smithston Fuel Up F027 at the Smithston Herefords on property sale.
- In 2015 we were given the opportunity to purchase the majority of the Mearanie herd.
- In 2017 we purchased cows at the Courallie Dispersal Sale and the Beggan Hill Reduction Sale. We also purchased the top priced bull at the Mountain Valley on property sale, Mountain Valley Long Shot.
- In 2020 we purchased Glendan Park Neutron to use within our herd. We also purchased Lotus Legion from the Thornleigh Dispersal Sale.
- In 2023, we purchased Valley Vista Shaquille S104 for \$37,000 - top price in record breaking sale.

Tyler Angus

STUD HISTORY

Tyler Angus Stud was established in 2018 after purchasing females in calf and bull calves from Outwest Angus at Coonamble. Later that year, we purchased females in calf from Kidman Angus at Gilgandra.

- In August 2018 we purchased our first stud sire from Mountain Valley Angus, Coolatai, Mountain Valley M236, which was the second top priced bull.
- In 2020 we purchased Mountain Valley Gabba P896.
- We have also purchased cows from Tandara and Dance Angus Studs.
- In 2022, we purchased cows from Narranmore Angus Stud

Helmsman Bid System

This method of buying bulls combines the good features of both the auction system and sale by private treaty. You get the opportunity to bid on and buy any bull in the offering and you pay competitive market value without any pressure.

HOW IT WORKS

1. On arrival, the intending purchasers register at the bid table and receive a buyer number.
2. All bulls and females are displayed for inspection as usual, with relevant information provided in the catalogue.
3. When the sale commences, all bulls are on the market simultaneously. You may bid on any bull regardless of lot number by filling a card and handing it to a 'runner'.
4. **You may open the bidding according to the opening pen price as displayed. Further bids will be accepted with a minimum amount of \$500.00 for Bulls and \$250.00 for Heifers (unless changed by Agent).**
5. Bids are recorded with the buyers number on a large board adjacent to the bull display area. You can bid on any number of lots at once and can see at a glance whether your bid still stands or has been overbid.
6. There is no pressure to commit yourself to another bid. If your first choice bull goes over the limit, you can still bid on any other lots in the sale.
7. A bid once submitted and recorded cannot be retracted, and the person responsible for submitting such a bid will be responsible for it until it is overbid.
8. The sale will remain open for a minimum of one hour. A bid registered in the last ten minutes will result in a ten minute time extension.
9. Further bids would trigger the same process until no more bids are received in a specified period, which would signify the end of the sale. (Not that the bidding interval may remain at ten minutes throughout or may be shortened progressively to as little as 15 seconds to speed up the sale.)

THE BENEFITS

- You have more time to consider lodging a bid. You can place genuine bids on any bull of your choice at any time during the sale period.
- You have the opportunity to re-assess each lot during the sale period without any pressure to make an instant decision.
- You have the opportunity to take home the bulls you want, irrespective of lot order. For example, having been out-bid on Lot 26, your first choice, you can move back to your second choice bull earlier in the catalogue, for example Lot 2.
- If you need more than one bull, Helmsman gives you the flexibility and time to average your purchase costs.
